The Machine By Which
All Others Are Judged

For more than thirty years the De Laval cream separator has been acknowledged as the World's Standard.

You may hear it said of some separator that "It's as good as a De Laval;" or if some competing salesman wants to make his argument particularly strong, he'll say "It's better than a De Laval."

The concern with a cheaply and poorly constructed machine says "Just as good as a De Laval and costs less."

But everywhere the De Laval is recognized by experienced creamerymen and dairymen and even by makers of would-be competing machines as the World's Standard.

The cream separator is more frequently used than any other machine on the farm, and for that reason, if for no other, only the very best should be purchased, and that's the De Laval.

First Real British Census.
The first real census of Great Britain and Ireland was taken in 1801, when the population of England, Scotland, Wales and Ireland was found to be 15,717,287. Food prices were then regulated by parliamentary enactment and "forestallers," or speculators in provisions, were severely punished by imprisonment. After the close of the Waterloo campaign prices receded to almost former rates and the British people were again happy.

TO RID CHILD OF WORMS.

Don't scold the fretful, nervous child. Often its due to worms. Get rid of these by giving one-half to one lozenge Kickapoo Worm Killer, a laxative worm candy. Give only plain nourishing food, lots of out-door exercise and put to bed early. Watch stools and continue giving Kickapoo Worm Lozenges, they will positively remove the worms. 25c at Druggists.

AVOID SPRING COLDS.

Sudden changes, high winds, shifting seasons cause colds and grippe, and these spring colds are annoying and dangerous and are likely to turn into a chronic summer cough. In such cases take a treatment of Dr. King's New Discovery, a pleasant Laxative Tar Syrup. It soothes the cough, checks the cold and helps break up an attack of grippe. Its already prepared, no mixing or fusing. Just ask your druggist for a bottle of Dr. King's New Discovery. Tested and tried for over 40 years.

Commissioner for said purpose; and Whereas, The owners of the property abutting upon said proposed improvement have, through a petition duly presented to the Council of the Village of Perrysburg, expressed their willingness to raise, by special assessment, sufficient funds to pay for one-half of the cost of said improvement; and

Whereas, It is estimated by the County Surveyor that the construction thereon of an asphaltic concrete surface will cost approximately \$31,000; now, therefore, be it

Resolved, By the Council of the said Village of Perrysburg, that it hereby consents to the extension of said proposed road improvement into and through said Village, and said Council does hereby assume and will pay the following proportion of the cost and expense of that part of the proposed improvement within said Village, to-wit: \$5,000.00 on the condition that said construction is of concrete or something better, and includes all necessary drainage.

Provided Always, That sufficient funds are raised and placed in the hands of the State Highway Commissioner for the completion of said proposed improvement, and upon the further condition that the funds hereinafter specified are duly paid and collected.

Best Thing for a Bilious Attack.

"On account of my confinement in the printing office I have for years been a chronic sufferer from indigestion and liver trouble. A few weeks ago I had an attack that was so severe that I was not able to go to the case for two days. Failing to get any relief from any other treatment, I took three of Chamberlain's Tablets and the next day I felt like a new man," writes H. C. Bailey, Editor Carolina News, Chapin, S. C. important city at the foot of the Rapids of the Maumee.

Therefore speaking of the one hundred years that shall have elapsed this summer, in the history of our village, I shall speak with reference to the above dates and to the above important events. Fate has so placed these mile-stones—we cannot remove them.

In the early days of the Valley, along about the year 1800, early settlers formed a little village down on the "Flats" of the river, almost beneath the present site of Ft. Meigs, which had not then been built. These settlers called their little town "Orleans." Orleans was composed of some 50 or more households, several stores, etc., and was quite an important place.

But thinking men say that it was not the place for a permanent city. So in 1816, the U. S. Government caused to be made a survey of the high ground on the bluff of the river below Ft. Meigs,—our present Perrysburg. This survey took place in the summer of 1816, and was done by Joseph Wampler, District Surveyor of the U. S. Government. History has recorded little of the ideas, thoughts or sayings of the men responsible for this survey. But we draw the conclusions, that these men had in mind the beginning of a large and magnificent Emporium of the Central Valley. Hence its location at the head of navigation and on high ground. Hence its large squares, its wide streets and broad avenues. In their minds, it was to become THE city of the middle west. They in their anticipation of its importance named it after Oliver Hazard Perry, the hero of Lake Erie. Had it been an inland city, it would have been called "Harrisonville," after the hero of Tippecanoe. But it was on the water and the honor was bestowed on Perry, and they called it Perrysburg.

As a matter of history, it will be remembered, that at the Treaty of Greenville, made between Wayne and the Indian Tribes, in 1796, a tract of land to be known as "The U. S. Reserve of 12 miles square" was ceded by the Indians to the U. S. Government. The center of this tract was to be at the foot of the Rapids of the Maumee. Those who did the surveying placed first a buried stone down on the river bank, just under the hill opposite the present site of the old Seurin Hotel in Maumee. From this stone used as a center, the Reserve was measured six miles east, west, north and south from this mark. This Reserve was U. S. Property, and that was why all deeds to land and lots to this tract and corporation were derived from the Government and bore the signature of the President of the United States.

Within the space of a few years, "Orleans" down on the "Flats" had become an interesting little town. It was near the center of the U. S. Reserve and felt quite safe from molestation by Indian bands that had no rights here.

Soon the war of 1812 came on and "Orleans" was temporarily abandoned and her people fled to the Interior. Ft. Meigs was then built,—in 1813,—and for two years war devastated the country. In 1814, the settlers returned to find most of their town destroyed, but it was in some measure rebuilt, but never to the extent of its former proportions.

When Perrysburg was surveyed, in 1816, "Orleans" down on the "Flats" was gradually abandoned for the more beautiful place that was to become the "Emporium of the West." Here we shall rest for the present. A new city is in the process of making, whose history, in many respects, is without a peer and is in every way interesting because of the notable events that have taken place within its time and within its first one hundred years.

was the work of each group that we can hardly refrain from mentioning the same; but space forbids. Certain it is that the last number, "Salute to Mothers by Young America," will leave sweet memories for many a day. The song was applauded by the congregation—something quite unusual in a Sunday service, but it showed how the salute had dug deep into the hearts of those present.

PNEUMATISM PAIN STOPPED.

The drawing of muscles, the soreness, stiffness and agonizing pain of Rheumatism quickly yield to Sloan's Liniment. It stimulates circulation to the painful part. Just apply as directed to the sore spots. In a short time the pain gives way to a tingling sensation of comfort and warmth. Here's proof—"I have had wonderful relief since I used your Liniment of my knee. To think one application gave me relief. Sorry I haven't space to tell you the history. Thanking you for what your remedy has done for me."—James S. Ferguson, Philada, Pa. Sloan's Liniment kills pain. 25c at Druggists.

Salesman's Mistakes Hurt.

An Atchison business man called a new salesman into his office and said to him, "When a plumber makes a mistake he charges twice for it. When a lawyer makes a mistake it's just what he wanted, because he has a chance to try the case all over again. When a doctor makes a mistake he cures it. When a preacher makes a mistake nobody knows the difference but you're going to try to be a salesman, and when a salesman makes a mistake it means a bereavement for the house."—Kansas City Star.

DOUBLY PROVEN

Perrysburg Readers Can No Longer Doubt the Evidence.

This Perrysburg citizen testified long ago.

Told of quick relief—of undoubted benefit.

The facts are now confirmed.

Such testimony is complete—the evidence conclusive.

It forms convincing proof of merit.

Christopher Knerr, shoemaker, Main St., Perrysburg, says: "I suffered from severe attacks of backache and I could hardly work as it hurt me to stoop or pick up anything. My kidneys were weak and I had to arise several times at night, which greatly disturbed my rest. The kidney secretions were painful in passage, too. I tried a great many medicines, but with little benefit until I used Doan's Kidney Pills. They did me a lot of good."

STEADFAST CONFIDENCE. AFTER FIVE YEARS, Mr. Knerr said: "I always keep a box of Doan's Kidney Pills on hand and take them whenever any signs of the old trouble appear. They never fail to relieve me."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Knerr has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.

U. S. MARINE IS SERIOUS.

His Literary Taste Satisfied With "Deep Stuff" Only.

That the United States Marine is serious in his reading and does not care for the froth of modern fiction, is the report of barracks librarians for the year of 1915. Soundings taken of his literary tastes show "deep stuff" and no bottom, for Guizot's "History of Civilization" found greater favor with Marines than any other book in the various libraries of the Marine Corps.

Although thousands of volumes of featherweight "best sellers" teetered on the library shelves, the sea soldiers showed preference for works of purely historical or educational value and Shakespeare outdraw Marryat, while Fennimore Cooper ran a bad second to Oliver Goldsmith, the librarians say.

WHOOPIING COUGH

"When my daughter had whooping cough she coughed so hard at one time that she had hemorrhage of the lungs. I was terribly alarmed about her condition. Seeing Chamberlain's Cough Remedy so highly recommended, I got her a bottle and it relieved the cough at once. Before she had finished two bottles of this remedy she was entirely well," writes Mrs. S. F. Grimes, Crooksville, Ohio. For sale by all dealers.

Mrs. Hep's Sayings.

HEART IN THE RIGHT PLACE

An Irishman, applying for a pension at Washington, insisted upon the justice of his claim owing to the fact that he had been wounded while in the service of his country.

"How and where were you wounded?" one of the committee inquired. Placing his hand over his heart, he said:

"I was shot in the breast on a retreat from Bull Run, yer honor."

"Shot through the breast on a retreat?" said the committee-man.

"How could you be shot through the breast on a retreat?"

"I had the indiscretion to turn and look back, yer honor."

"But if you were shot in the breast in the place you indicate, the ball would have gone through your heart. How is that?"

"Me heart was in me mouth at the time, yer honor."—Fun and Frolic, in the People's Home Journal for April.

The Most Popular Overland

There is already an enormous demand for this big four cylinder Overland.

With certain improvements, it is the same car of which 55,000 Overlands were sold last season for \$750.

The price is \$55 less.

Standardization of product and the purchase of raw materials at before-the-war prices, made this reduction in price possible.

It will not be lower, for materials are rising in price.
